DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 10-12, drawn to a wheeled vehicle including an antitheft device and an accelerometer, classified in class 180, subclass 287.
 - II. Claims 1-9 and 13-35, drawn to a wheeled vehicle including an accelerometer used as either a tilt sensor, a deceleration sensor, or an acceleration sensor, classified in class 180, subclass 283.
2. Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the accelerometer does not need to function as a tilt sensor, a deceleration sensor, or an acceleration sensor in order to incorporate an antitheft device into the wheeled vehicle. The subcombination has separate utility such as the accelerometer can be used as a tilt sensor, a deceleration sensor, or an acceleration sensor without the incorporation of an antitheft device.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and recognized divergent subject matter, and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Robert Roby on March 26, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Laura B Rosenberg whose telephone number is (703) 305-3135. The examiner can normally be reached on Monday-Thursday, alternating Fridays 7:30am-5:00pm.
